Please note: If you send your consignments by email, please make sure to distinguish each doe or feel free to send each doe in a separate email to avoid confusion. Because the registration process is taking longer than normal and/or mail is causing delays, we ask that you are proactive in getting your consignments registered and parent verified as soon as possible to avoid delays or withdrawals of consignments from the sale. If you are awaiting registration papers and cannot provide the registration number of the consignment at this time, please list the sire and dams names and registration numbers in the comments section to ensure we have accurate information. Registrations, however, along with verified parentage DNA must be available by July 15, 2024. Lot numbers will be selected by CKC organizers once we have received all consignment information (please leave that line blank) and will be provided to you at a later time. Feel free to provide a reserve now if you are ready. A reserve form will also be available at check in. **Please be sure to note any comments that you would like listed in the catalog and remember that the comments space is limited. We will do our very best to get your most important comments in print.**
